## My visit to the pyramids

Posted by Luis Alberto on 08 August at 7:15

One day my whit my family and I decid to go visit the pyramids of the sun and the moon, we arrived around 12 or 1 on clock in the afternoon. We started looking at the small pyramids, taking photos and videos.

Finished seeing the small pyramids we decided to go first to visit the pyramid of the sun, it cost work to climb and when we got to the top we took more photos and enjoy the land scape and the wind. And what cost more was lowering the pyramid when we finished lowering the sky became cloudy so we hurries to go to the moon.

It took us a while to go up since a lot of people go up but we got to the top standing in a row surrounded by the pyramid we taking photos and videos. And then, unluckly, it starts to rain just when we and the whole family were on top of the pyramid.

And we got stuck upstairs in the rain because we were far behind the line and people go down very slowly and well, in the finished we went down when it stopped raining, give us time but it was fun and finally we went to my uncle in your house to dry off and talk about what happened and finally we went to a restaurant to eat to end the day
